

Zero Gravity Position Recliner Mechanism

Our factory specializes in manufacturing of zero gravity position recliner mechanism, looking forward to your purchase. This zero gravity position recliner mechanism is a true zero gravity tilt mechanism, providing you with true zero gravity comfort, smoothness and safety. Three zero gravity poses can improve your health, provide full relaxation, and recover energy from hard work.

Product Description

Adjustable Sofabed Mechanism

LINKREST is one of the leading **Zero Gravity Position Recliner Mechanism** manufacturers and suppliers in China. Our future is dependent on our passion for more value added and brand new designing, high quality products and professional service while meeting our financial objectives. We have been investing in R&D, automatic production lines, and finding the best solution to reduce the cost and lead time for customer satisfaction. Raw material and transportation cost are on the rise, we have dedicated ourselves on finding technical solutions like our DIY mechanisms and redesigned construction to ensure customer satisfaction.

Zero Gravity Position Recliner Mechanism Features & Benefits:

1. Real Zero Gravity Recliner mechanism, recover your energy from hard work which provide real zero gravity comfort, smoothness and safety. With the bracket and seat cushion moving together. Meanwhile the footrest can be extended as an option.
2. Seat frame can be lifted up for ease in installation.
3. Well balance in each three zero gravity position for safety.
4. Strong K.D. arms and KD back brackets allow a small package.
5. Rigid structural footrest has more than 50 KGS loading capacity.
6. Welded frame provides greater side-side strength, durability and stability.
7. Option for AI smart switch bottom. Once the loading weight exceeds the loading capacity the motor will stop running.
8. Fingertip motion control with infinite recline positions.

9. Three Zero Gravity positions improve your health and provide fully relaxation, and recover your energy from hard work.

10. Option for extend footrest linkage.

This is a real zero gravity position as photo shows below:

1501# zero gravity recliner mechanism fits to chairs and home theaters, it is real relaxing instead of traditional recliner mechanism.
